This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Über dieses Buch

Dies ist ein digitales Exemplar eines Buches, das seit Generationen in den Regalen der Bibliotheken aufbewahrt wurde, bevor es von Google im Rahmen eines Projekts, mit dem die Bücher dieser Welt online verfügbar gemacht werden sollen, sorgfältig gescannt wurde.

Das Buch hat das Urheberrecht überdauert und kann nun öffentlich zugänglich gemacht werden. Ein öffentlich zugängliches Buch ist ein Buch, das niemals Urheberrechten unterlag oder bei dem die Schutzfrist des Urheberrechts abgelaufen ist. Ob ein Buch öffentlich zugänglich ist, kann von Land zu Land unterschiedlich sein. Öffentlich zugängliche Bücher sind unser Tor zur Vergangenheit und stellen ein geschichtliches, kulturelles und wissenschaftliches Vermögen dar, das häufig nur schwierig zu entdecken ist.

Gebrauchsspuren, Anmerkungen und andere Randbemerkungen, die im Originalband enthalten sind, finden sich auch in dieser Datei – eine Erinnerung an die lange Reise, die das Buch vom Verleger zu einer Bibliothek und weiter zu Ihnen hinter sich gebracht hat.

Nutzungsrichtlinien

Google ist stolz, mit Bibliotheken in partnerschaftlicher Zusammenarbeit öffentlich zugängliches Material zu digitalisieren und einer breiten Masse zugänglich zu machen. Öffentlich zugängliche Bücher gehören der Öffentlichkeit, und wir sind nur ihre Hüter. Nichtsdestotrotz ist diese Arbeit kostspielig. Um diese Ressource weiterhin zur Verfügung stellen zu können, haben wir Schritte unternommen, um den Missbrauch durch kommerzielle Parteien zu verhindern. Dazu gehören technische Einschränkungen für automatisierte Abfragen.

Wir bitten Sie um Einhaltung folgender Richtlinien:

+ *Nutzung der Dateien zu nichtkommerziellen Zwecken* Wir haben Google Buchsuche für Endanwender konzipiert und möchten, dass Sie diese Dateien nur für persönliche, nichtkommerzielle Zwecke verwenden.

+ *Keine automatisierten Abfragen* Senden Sie keine automatisierten Abfragen irgendwelcher Art an das Google-System. Wenn Sie Recherchen über maschinelle Übersetzung, optische Zeichenerkennung oder andere Bereiche durchführen, in denen der Zugang zu Text in großen Mengen nützlich ist, wenden Sie sich bitte an uns. Wir fördern die Nutzung des öffentlich zugänglichen Materials für diese Zwecke und können Ihnen unter Umständen helfen.

+ *Beibehaltung von Google-Markenelementen* Das "Wasserzeichen" von Google, das Sie in jeder Datei finden, ist wichtig zur Information über dieses Projekt und hilft den Anwendern weiteres Material über Google Buchsuche zu finden. Bitte entfernen Sie das Wasserzeichen nicht.

+ *Bewegen Sie sich innerhalb der Legalität* Unabhängig von Ihrem Verwendungszweck müssen Sie sich Ihrer Verantwortung bewusst sein, sicherzustellen, dass Ihre Nutzung legal ist. Gehen Sie nicht davon aus, dass ein Buch, das nach unserem Dafürhalten für Nutzer in den USA öffentlich zugänglich ist, auch für Nutzer in anderen Ländern öffentlich zugänglich ist. Ob ein Buch noch dem Urheberrecht unterliegt, ist von Land zu Land verschieden. Wir können keine Beratung leisten, ob eine bestimmte Nutzung eines bestimmten Buches gesetzlich zulässig ist. Gehen Sie nicht davon aus, dass das Erscheinen eines Buchs in Google Buchsuche bedeutet, dass es in jeder Form und überall auf der Welt verwendet werden kann. Eine Urheberrechtsverletzung kann schwerwiegende Folgen haben.

Über Google Buchsuche

Das Ziel von Google besteht darin, die weltweiten Informationen zu organisieren und allgemein nutzbar und zugänglich zu machen. Google Buchsuche hilft Lesern dabei, die Bücher dieser Welt zu entdecken, und unterstützt Autoren und Verleger dabei, neue Zielgruppen zu erreichen. Den gesamten Buchtext können Sie im Internet unter `http://books.google.com` durchsuchen.

Vorwort zur ersten Auflage.

Bei der außerordentlichen Anerkennung und weiten Verbreitung, die Justus Perthes' Taschen-Atlas nicht nur in vielen Schulen, in der Hand des Lehrers wie des Schülers, sondern bei allen Gebildeten gefunden hat, lag der Gedanke nahe, ein ähnliches handliches Hilfsmittel auch für das Gebiet der Geschichte, und zwar zunächst der alten, zu schaffen.

Es wird daher hiermit eine Reihe Karten zur alten Geographie geboten, wie sie in solcher Vollzähligkeit und in gleich klarer, eleganter Ausführung durch Kupferdruck und Handkolorit zu so billigem Preise bisher noch nicht bestand. Die bedeutende Reichhaltigkeit des Inhaltes aber, die keineswegs die Übersicht beeinträchtigt, geht am besten aus dem beigegebenen Namenverzeichnis hervor, welches nicht weniger als 7000 Namen enthält.

Leider war es dem Bearbeiter des kleinen Werkes Prof. Dr. A. van Kampen nicht vergönnt, dessen Fertigstellung mitzuerleben; bei seinem im vorigen Jahre erfolgten frühen Tode lagen zwar sämtliche Kartenblätter im Stich schon weit fortgeschritten vor, doch war noch für alle eine genaue Korrektur und besonders die Anfertigung des Namenverzeichnisses zu besorgen. Dieser Arbeit unterzog sich nach ergangener Aufforderung der Verlagsanstalt der Unterzeichnete, ein dankbarer Schüler und treuergebener Kollege des verstorbenen Verfassers, gern.

Die Korrektur bezog sich notwendigerweise nur auf Beseitigung fehlerhafter Namen und hier und da, wo es der Raum gestattete, auf Hinzufügung einiger aus historischen Gründen wichtiger Ortsbezeichnungen. Für die Aufstellung der einzelnen Karten, den Maßstab und die Auswahl des Stoffes ist der Unterzeichnete also nicht verantwortlich. Die Leichtigkeit des Auffindens soll das Namenverzeichnis fördern, das jeden auf der Karte eingezeichneten Namen mit Angabe der Kartennummer und des Feldes, in dem er zu suchen ist, enthält. Bei Namen derselben Örtlichkeit, die sich auf mehreren Karten wiederholen, ist in der Regel nur auf die in größerem Maßstabe ge-

M107427

haltene verwiesen. Den einzelnen Namen ist aufser den unten angegebenen abgekürzten Erklärungen noch der Name der Landschaft hinzugefügt, in welcher der betreffende Ort oder Flufs u. s. w. sich befindet, ein Verfahren, das namentlich bei den nicht wenigen gleichen Bezeichnungen verschiedener Örtlichkeiten das Finden der gerade gewünschten wesentlich erleichtert. Am Schlusse sind noch die von van Kampen auf der Tabula Peutingeriana ausgewählten Namen alphabetisch aufgezählt, und zwar in der Orthographie und (nach dem Vorschlage K. Millers, Die Weltkarte des Castorius, Text p. 103) auch im Kasus der Tabula, da die Nominativform oft zweifelhaft ist, in vielen Fällen in der Volkssprache überhaupt nicht existiert hat.

Möge sich der kleine Atlas antiquus in weiten Kreisen viele Freunde erwerben!

Gotha, Oktober 1892.

Dr. Max Schneider.

Abkürzungen.

aest. = aestuarium.	*mon.* = monumentum.	*riv.* = rivus.
camp. = campus.	*op.* = oppidum.	*sin.* = sinus.
fl. = fluvius.	*paenins.* = paeninsula.	*templ.* = templum.
fr. = fretum.	*pal.* = palus.	
ins. = insula.	*pop.* = populus.	
lac. = lacus.	*pr.* = promontorium.	*cf.* = confer.
m. = mons.	*prov.* = provincia.	*p.* = prope.
ms. = montes.	*rg.* = regio.	*s.* = sive.

GOTHA: JUSTUS PERTHES

TABULA PEU

Tabula nostra, quae nunc Vindobonae in bibliotheca Imperatoria conservatur, in
mento legata est. Segmentorum XII primum non iam exstat. Cetera singula alta
quae in hac effigie deminuta inveniuntur, locorum in ipsa tabula certis signis dis
mensuris, singula oppida conjuncta sunt. Dubium non est, quin Tab. Peut. sae

SEGMENTUM I
temporum iniquitate periit.

V. Geyer del.

tio saeculi XVI a Conrado Celtes Colmari inventa, tum Peutingero (Aug. Vindel.) testa-unt cm. 34, longa cm. 59-65. Tota tabula met. 6 cm. 82 longa est. Praeter ea nomina, tinctorum innumera alia viis adscripta sunt, quibus, additis intervallorum IIII ex vetustiore quodam exemplari sit descripta.
